## AIR-CONDITIONING

*Brings Made-to-Order Weather*

Air conditioning is not only a summer-time convenience — it is on the job all the time. The thermometer outside may read below zero or above the hundred mark, but it always will be healthfully comfortable in air-conditioned rooms.

Air-conditioning has proved itself. It is a definite boost to business, a factor in increasing efficiency, and it makes home much more pleasant.

Call Hammond 5200 and our engineers will make a free survey, giving an estimate on equipment suited to your needs.

# INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1939 edition of the Hammond City Directory, which also includes Whiting, Ind., and Calumet City and Burnham, Ill.

Confidence in the continued growth of Hammond's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Hammond to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Hammond Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments

The five major departments are arranged in the following order:—

**THE MISCELLANEOUS DEPARTMENT** for Hammond, Calumet City and Burnham, pages 11 to 19, on white paper, presents lists of city, county and federal officials; post office and public school Directories; statistical review; and manufacturing, trade and civic surveys. A similar department for Whiting appears on page 579

**THE ALPHABETICAL LIST OF NAMES** of residents and business and professional concerns of Hammond, Calumet City and Burnham is included in pages 21 to 383, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of the community, and the name, official personnel, nature and address of each firm and corporation. A similar list for Whiting occurs in pages 581 to 622.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, for Hammond, Calumet City and Burnham, on pink paper, covers pages 385 to 482. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones. A similar guide for Whiting extends from page 625 to page 635.

**THE BUYERS' GUIDE**, beginning opposite page 484 and separately paged from 1 to 48, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Hammond and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Hammond, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

**THE CLASSIFIED BUSINESS DIRECTORY** for Hammond, Calumet City and Burnham is included in pages 532 to 574, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and

seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium. A similar Directory for Whiting will be found in pages 637 to 644.

### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Hammond and vicinity.

### The Hammond Directory Library

Through the courtesy of the publishers of the Hammond City Directory, a Directory Library is maintained in the offices of the Hammond Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,  
Publishers.

# HAMMOND

## Statistical Review

Form of Government—Mayor and council.

Population—Total, 64,560; males, 33,639; females, 30,921; total colored, 623; white males of age, 20,502; white females of age, 17,868 (1930 U. S. Census). Local estimate at present, 75,443. American-born, 83.9%. Predominating nationalities of foreign-born residents: German, Polish and Czechoslovakian.

Area—27 square miles.

Altitude—585 feet above sea level.

Climate—Mean annual temperature, 49.2 degrees F.; average annual rainfall, 33.02 inches.

Parks—14, with total of 250 acres, valued at \$1,750,000.

Assessed Valuation — \$89,832,140, with \$3.46 per \$100 tax rate.

Bonded Debt—\$4,905,980 (includes park board, water board, sanitary district, school city and libraries).

Financial Facts—2 banks, with total deposits of \$7,434,471.98 (June 30, 1939), and total resources of \$8,017,753.27 (June 30, 1939).

Telephones in Service—10,157.

Churches—57, representing leading denominations.

Building and Construction—1,494 permits, with total value of \$2,445,770, issued in 1938.

Industry—Chief industry is manufacturing. 73 manufacturing establishments, employing 5,467 men, paying wages of \$7,441,716 annually, and having products valued at \$76,255,070 annually (1937 report). Principal manufactured products: Oils, soap products, foods, animal and dairy feeds, railway cars, railway supplies, clothing, metal castings, foundry products, refined metals and heavy machinery.

Trade Area—Retail area has radius of 150 miles, and population of 165,000.

Newspapers—1 daily and Sunday and 1 weekly.

Hotels—7, with total of 400 rooms.

Railroads—10, including New York Central, Pennsylvania, Baltimore & Ohio, Erie, Monon, Nickel Plate, and Wabash.

Highways—U. S. 6, 12, 20, 30 and 41.

Airports—2 (near the city).

Amusements — Largest auditorium in city seats 6,000 persons. 7 moving-picture theatres, with total seating capacity of 7,300 persons. 5 golf courses.

Hospitals—1, with 260 beds.

Education—19 public schools, including 3 senior high. 11 parochial schools. Number of pupils in public schools, 13,946; in parochial, 3,207. Number of teachers in public schools, 475; in parochial, 86. Value of public school property, \$5,000,000.

Public Libraries — 7, including branches, with total of 100,000 volumes.

City Statistics — Total street mileage, 255, with 155 miles paved. Miles of sewers, 170. Number of water meters, 13,788; electric consumers, 17,977; gas consumers, 16,010. Capacity of water works, 45,000,000 gallons; daily average pumpage, 12,000,000 gallons; miles of mains, 200; value of plant, \$3,700,000. Fire department has 85 men, with 6 stations and 15 pieces of motor equipment. Value of fire department property, \$145,000. Police department has 80 men, with 2 stations and 28 pieces of motor equipment.

## Location, Population, Etc.

LOCATION—Hammond is located in Lake County, the second largest county in Indiana, in the northwest corner of the state. It is twenty miles southeast from the Loop district of Chicago; 954 miles from New York; 304 miles from St. Louis; 442 miles from Minneapolis; 941 miles from New Orleans, and 2,281 miles from San Francisco.

BOUNDARIES — Hammond is bounded on the north by Lake Michigan, Whiting and East Chicago; on the east, by Whiting, Gary and East Chicago; on the south, by Little Calumet River, and on the west by Chicago, Calumet City, Burnham and Cook County, Ill.

POPULATION—The population of Hammond was 64,560, according to the 1930 U. S. Census. The estimated population for 1939 is 75,443, based on a school enrollment of 17,147, using the U. S. Government ratio of 4.4.

The population of the Hammond trade area is approximately 165,000. Hammond directly adjoins Chicago, and for many purposes the trade area of Hammond is the trade area of Chicago, particularly for industrial purposes, which from that standpoint would give Hammond an additional industrial trade population of more than 3,500,000.

Of the Hammond population, according to the 1930 Census, 83.9% were native white, 15.1% foreign-born, and 1% Negro. Of the foreign-

born, more than 50% were German, Polish and Czechoslovakian nationalities.

The growth of Hammond is reflected in the following population figures:

1900 .....	12,376
1910 .....	20,925
1920 .....	36,004
1930 .....	64,560
1939 .....	*75,443

\*(estimated)

The unusual favorable location of Hammond at the tip of Lake Michigan, in the center of population, at the waterway terminus of all directions, and with unequaled railway distribution, makes its future growth inevitable. No industrial location in the U. S. can compare with it.

### Government

Hammond is governed by a city council form of government. The incumbent administration is headed by Mayor Frank R. Martin, a Democrat. The administration is regarded as conservative in its aims and has maintained an equitable balance between the interests of all persons affected by the government.

The police and fire departments operate on a civil-service basis. The heads of these departments having been in office for years, is conclusive evidence of the high efficiency of these protective agencies.

The police department is equipped with a two-way radio system through which the possibility of crime has been greatly reduced.

Both the police and fire departments have gained national recognition because of the low annual fire loss and because of the very high standard of law enforcement.

### Taxation

The law of the State of Indiana establishes a rate of \$2 for each \$100 assessed valuation as the maximum tax levy to cover all taxing units, except for emergency expenditures. This undoubtedly is very beneficial in keeping the tax rate on a low level.

The tax rate for Hammond for this year is \$3.46 per \$100 assessed valuation.

The general attitude of officials in making assessments on real and personal property has been reasonable to industry. All assessments are subject to review by the State Tax Board.

There is a state gross income tax of 1% on retail sales and individual incomes, and  $\frac{1}{4}$  of 1% on manufactured goods.

There is no state sales tax in Indiana, and no occupational tax.

There is a tax ranging from \$3 to \$150 per year on retail stores.

There is also an intangible tax of 25c for each \$100.

The assessed valuation of Hammond for 1938 was \$89,832,140, and of Lake County, \$380,449,850. The state, county, township, civil city and school city tax rates follow:

State .....	\$ .15
County .....	.515
Township .....	.0137
Township Poor Relief .....	.5063
Township Road Bonds .....	.06
Library .....	.07
School City .....	1.20
Civil City .....	.945
Total .....	\$ 3.46

### Transportation

Transportation facilities in Hammond offer direct or inter-connected facilities with all parts of the U. S. The city is accessible by railroad, electric railroad, state and federal highways, bus and truck lines, waterways and air lines.

RAILWAYS—Hammond is serviced by ten railway lines; three belt lines.

The ten trunk railway lines are: Baltimore & Ohio; Chesapeake & Ohio; Chicago & Erie; Chicago, Indianapolis & Louisville; Michigan Central; New York Central; New York, Chicago & St. Louis; Pennsylvania; Pittsburgh, Cincinnati, Chicago & St. Louis; Wabash.

In addition, the city is within the Chicago switching district and enjoys low freight rates, the same as those in Chicago. The three belt lines are the Baltimore & Ohio Chicago Terminal, the Elgin, Joliet & Eastern, and the Indiana Harbor Belt. These make available a fast, direct service to all roads out of Chicago. Trap-car service also is available on belt lines for less-than-carload-lot shipments. Trap cars go to the Indiana Harbor Belt switching yards, where shipments are consigned to the various lines, thus offering a faster and more efficient service.

The Indiana Harbor Belt Railroad's largest terminal, Gibson Yard, is located in Hammond. Cars from the industries of Hammond and Calumet City are made up in trains and run direct from Gibson Yard to all eastern, western and southern lines, making but one handling from the industries to any one trunk line over which the shipment may move.

ELECTRIC LINE — The Chicago, South Shore & South Bend Railroad provides a fast passenger and freight electric service to Chicago, passenger service operating every thirty minutes and requiring 36 minutes from the Hammond station to the Randolph St. station in Chicago. Low round-trip passenger fares are offered on commutation tickets.

BUS SERVICE — An inter-city bus service including Hammond, Calumet

City, Whiting, East Chicago and Gary, is maintained by the Chicago-Calumet District Transit Co., which makes connections with bus and railway lines in Chicago at 63d St. In addition, there are electric railway services inter-connecting these Calumet Region cities.

**TRUCK SERVICE** — Fast, daily truck service is operated between Hammond and Chicago and numerous other points by a number of trucking companies. Hammond is the focal point for a large number of highly improved highways radiating in every direction.

**WATERWAYS**—Hammond is only a few miles from Indiana Harbor on Lake Michigan, which provides easy accessibility for water transportation. The Indiana Harbor is used by a number of large industries as a port for shipping to foreign countries, and also for receiving shipments from foreign ports.

The Great Lakes Dock Terminal maintains a shipping point at Indiana Harbor. Direct regular railway service is available to St. Louis and Cairo, Ill., for barge transportation on the Mississippi to the Gulf, and from there to other ports of the world.

**AIRPORTS**—Hammond is less than three-quarters of an hour by automobile from the Chicago Municipal Airport, and from the Ford Airport at Lansing, Ill.

#### Public Utilities

**ELECTRICITY**—Electric energy for Hammond is available in unlimited quantities with a rate structure designed to encourage use by industries. The rate schedule for electric energy, which is provided by the Northern Indiana Public Service Co., is as low as can be found in any large industrial city. Hammond is the location of one of the largest steam-generating plants in the world, and the company is equipped to take care of any industrial demand.

**GAS**—A high-grade gas is also furnished by the Northern Indiana Public Service Co. at a very low rate for industrial users.

**COAL**—With coal mines in Indiana, Illinois, Kentucky, Pennsylvania and Virginia, Hammond is assured of a plentiful supply of cheap coal.

**OIL**—The largest oil refineries in the world are located within the Hammond district, and fuel oil is available at reasonable rates.

**PETROLEUM COKE** — Because of the large oil-refining operations, an adequate supply of petroleum coke is also available, a special fuel valuable for certain operations and not to be had in many industrial areas.

**WATER** — The City of Hammond owns its water plant, the supply coming from Lake Michigan, and the rate being a graduated scale based on the amount used. Hammond has the lowest water rate of any city in this section of Indiana.

Hammond has recently completed a \$1,000,000 filtration plant, with ample storage capacity, which guarantees a plentiful supply of the purest water for industrial and domestic use.

**COMMUNICATIONS**—Hammond is served by the Illinois Bell Telephone Co., the Western Union Telegraph Co. and Postal Telegraph Co. It also has Radio Station WWAE, operating on 1,200 kilocycles, and WHIP, operating on 1,480 kilocycles.

#### Publishing and Printing

There are a number of printing establishments in Hammond that have a national clientele. Much Chicago printing is handled in these plants. The plants are equipped with all modern facilities for color printing, offset work, bookbinding, and the printing and preparation of catalogs and mailing pieces.

There is one daily afternoon newspaper, The Hammond Times (Independent Republican), with a circulation of 23,009 (ABC report). It receives full Associated and United Press services, and serves the entire trading area.

#### Labor

Because of Hammond's location in the Calumet Region, there is a large supply of both skilled and unskilled labor. There is a good market for female workers, because of the large number of male workers employed in the steel mills and heavy metal industries where female labor is not employed.

With the exception of the building and printing trades, practically all industries operate under the American plan, and Hammond is well known as an open-shop city. A few industries, such as oil refining, clothing, etc., employ union workers.

There have been no industrial disturbances over a number of years, and the general attitude of the city as a whole does not encourage labor troubles.

#### Housing and Living Costs

Hammond is the residential city for a number of the surrounding industrial cities that are unable to provide suitable housing of the better type and which have no expansion possibilities.

At the present time there is a shortage of homes, as is true in a majority of cities throughout the country.

Good homes can be rented, when available, at \$25 per month and up, this depending entirely upon location and type of home desired.

Because of Hammond being in the Chicago area, prevailing living costs are about the same as in that city. Rentals, taxes and utility costs are cheaper.

Hammond is located adjacent to a superior garden and trucking area, immediately contiguous to the Michigan-Indiana fruit belt, and also is close to the large meat-packing operations of the country, making these things available, with wide choice, and at reasonable prices.

### Commercial Organizations

There are four commercial organizations giving direct service to the industrial and commercial interests of the city.

The Hammond Chamber of Commerce, the largest, composed of the representative professional and business concerns, is constantly promoting the general welfare of the city from a business standpoint and has a constructive program of activities.

The Hammond Safety Council, a division of the Chamber of Commerce, has been successful in maintaining low insurance rates through its work in fire-prevention, public safety, etc. This division has received several awards in the Inter-Chamber Fire Waste Contests conducted by the U. S. Chamber of Commerce.

The Chamber of Commerce, with other organizations, is constantly active in a study of proposed budgets of the taxing units and has been a strong influence in maintaining a low tax rate. It has also given much attention to proposed legislation and has been successful in protecting the interests of the manufacturers in many legislative matters of a vital nature. The program of the Chamber of Commerce is a general one and always in the interest of business as a whole.

The Manufacturers' Association is composed only of manufacturers. This organization deals entirely with matters affecting the interests of its membership.

The Hammond Merchants' Association, now a division of the Chamber of Commerce, deals in subjects affecting the retail trade only. It devotes most of its efforts toward trade promotion, trade practices, etc.

The Hammond Credit Exchange is composed of a large number of retailers. This organization is solely for the purpose of giving confidential credit information.

Other organizations active in matters in their particular fields of busi-

ness activity are the Hammond Real Estate Board, the Lake County Underwriters' Association, the Calumet Region Auto Parts Association, etc.

### Civic Organizations, Etc.

Most of the civic, and practically all of the fraternal organizations are represented in Hammond.

Rotary, Kiwanis, Lions and Optimists represent the civic luncheon clubs. Also there are the active Women's Club, American Legion Auxiliary, Parent-Teachers' Association and Business and Professional Women's Club.

All character-building and welfare work clears through the United Welfare Association, which conducts an annual drive for a fixed sum to provide for these activities each year, thus relieving business organizations of solicitations more than once a year for these purposes.

Organizations which derive their support from this Association are:

- American Red Cross
- Bethany Children's Home
- Boy Scouts
- Brooks House
- Calumet Goodwill Industries
- Carmelite Home for Boys
- Catholic Associated Charities
- General Relief Agency
- Girl Scouts
- Hammond Fresh Air Camp
- Salvation Army
- Young Women's Christian Association

### Educational, Religious and Cultural Features

**SCHOOLS**—The Hammond school system consists of sixteen grade schools, three high schools, one Catholic high school and ten parochial schools, all of which are staffed with highly competent teachers and instructors.

The Technical Vocational School is an important source of potential employee-leadership and offers a training course designed to fit young men to take their place in the industrial community.

There are two highly-rated privately-owned commercial schools, assuring an adequate supply of stenographic and secretarial help.

For those desiring higher education, extension courses are provided from the University of Indiana, and engineering courses are given from Purdue University, oftentimes specializing in such subjects as the heat-treatment of metals, electric welding, gas welding, and kindred subjects of particular interest to manufacturers.

Many Hammond residents avail themselves of the opportunity to take

night courses at the University of Chicago and Northwestern University.

**CHURCHES**—All denominations are represented in the religious life of Hammond—39 Protestant, 8 Catholic, 2 Jewish and 8 miscellaneous congregations.

**LIBRARY**—The Hammond Public Library has six branches, and will, with the cooperation of the industries, establish a branch within an industry if the demand for library service justifies it. There are 100,000 volumes in the Hammond Library system.

#### Recreation

**PARKS**—Hammond is equipped with all types of wholesome recreation. There are fourteen parks, with an acreage of 250, and a valuation of \$1,750,000. These parks are equipped with tennis courts and playgrounds with attractive landscaping.

**GOLF**—There are five golf courses within a few minutes of town—Woodmar Country Club, Wicker Park, Lansing Airport Course, Lake Hills, and Burnham Woods.

**SWIMMING**—There is swimming at modern pools in a number of the city parks. Numerous beaches are located in the Dunes territory and elsewhere within short distances of Hammond.

**WICKER PARK**—Within a few miles of Hammond is the famous Wicker Memorial Park, which is one

of the few township-owned public parks in the country. It has 235 acres. This park is equipped with an 18-hole public golf course, picnic facilities, modern swimming pool, and other equipment which make it a popular place for company and organization outings.

**SCOUTING**—For boys and girls of scouting age, there are active scouting troops in Hammond. Both organizations maintain camps for Hammond boys and girls.

**FOREST PRESERVES**—Immediately across the state line in Cook County, providing bridle paths, trails and outing facilities, is one of the Illinois forest preserves.

#### Public Health

Hammond maintains an efficient health department under the direction of a board of health of three members and in charge of a qualified physician, safeguarding the city against the spread of infectious and communicable diseases. The appropriation of this department provides for free analysis of milk and water in a well-equipped laboratory, and also for a registered nurse.

#### Hospitals

There is one hospital, St. Margaret's, operated by the Sisters of St. Francis, with a capacity of 260 beds. The hospital is fully equipped for surgery and for the proper care of patients.

# CALUMET CITY

"CITY OF HOMES"

(Courtesy Calumet City Association of Commerce)

#### Statistical Review

Population—1930 U. S. Census, 12,298; local estimate at present, 16,000.

Area—8.5 square miles.

Altitude—585 feet above sea level.

Climate—Mean annual temperature, 49.2 degrees F.; average annual rainfall, 33.02 inches.

Parks—1 public and 2 forest preserves.

Assessed Valuation—\$5,172,000.

Bonded Debt—\$144,000.

Churches—4, representing 4 denominations.

Real Estate—3,000 homes, with about 80% owned by occupants.

Industry—Railway-car building plant, oil refineries, steel mills, can-

ning, bottling works, brewery, meat-packing, fertilizer works, chemical company and stock yards.

Trade Area—Retail area has radius of 2 miles, and population of 25,000.

Railroads—10 trunk lines.

Highways—U. S. 6, 41 and 330; State 58.

Airports—1, privately-owned.

Amusements—Largest auditorium in city seats 2,000 persons. 2 golf courses.

Education—4 public schools, including 1 high. 3 parochial schools.

Public Libraries—1, with 3,000 volumes.

City Statistics—Number of water meters, 3,600; light meters, 5,200; gas meters, 5,200. Fire department

has 6 men, with 1 station and 4 pieces of motor equipment. Police department has 9 men, with 1 station and 4 pieces of motor equipment.

#### General Review

This locality was first called West Hammond, later incorporated as the Village of West Hammond, still later incorporated as the City of West Hammond, and in 1925 the name was changed to Calumet City. It is in Cook County, 22½ miles from the center of Chicago. It adjoins Chicago on the north, and Hammond on the east. Residents of Calumet City are 20 minutes' ride from 130 different industries of the Calumet District. The city is free of industrial gases and therefore very desirable for residential purposes.

Joining Hammond and Chicago, Calumet City is served with the best of facilities. Theatres, banks, hospitals and churches of Hammond are closer to the whole population of Calumet City than to the people of Hammond. The north and west sides of the city have many desirable sites for

industrial expansion and development. City improvements are available in enough vacant property to double the population with new homes without additional facilities. For years Calumet City has drawn home-owners due to low taxes, fine water, good streets and tolerant municipal supervision of business.

Being a "City of Homes," Calumet City has stood out as a desirable location for residential purposes. Many business men who have their offices and industries across the line in Hammond and Chicago, reside in Calumet City. Most of the population resides within walking distance of the business center of Hammond. The city's liberal policies make it a desirable location for factories as well as homes. Property has a ready market in Calumet City.

The Calumet City Association of Commerce last year secured direct transportation to the Chicago Loop. It is now trying to get more playgrounds for the city, and seeking general improvements in every way possible.

## POLK'S HAMMOND

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

### 1939

Including Burnham and Calumet City, Ill.

Copyright, 1939, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information from the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

## The Symbol of Service *in fine Book-making*

THE distinctive Conkey Winged Horse trade mark is symbolic of over fifty years of development in the printing arts. It typifies an institution of capability. The immense Conkey plant embodies mental and mechanical equipment that has succeeded in manufacturing fine books for over a half-century.

The Winged Horse imprint in your book signifies quality from cover to cover. It assures strength of construction, fine papers, excellent typography, and long service.

The ability to produce fine books is a Conkey achievement that should be of profitable interest to you.

## Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

As your "neighborhood" nurserymen, we are in a position to serve your planting needs in an efficient way, having in our nursery stock consisting of evergreens of the highest quality, shade and fruit trees, shrubs, vines and perennials—all of which are acclimated to our part of the country. We also have a complete understanding of soil conditions and of the handicaps which have to be overcome before you can be assured of a planting of lasting beauty.

If given the opportunity, we will convince you of our sincerity and honest desire to serve you in any work given us. Whether the job be large or small, we will give you our best. Being located just outside the Hammond city limits, our nursery can be visited and a personal selection of nursery stock made with little outlay of time or gas. Visitors welcome any time.

# When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

WHITING DIRECTORY OF HOUSEHOLDERS (1939)

## POLK'S WHITING

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

### 1939

Copyright, 1939, by R. L. Polk &amp; Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

## Association of North American Directory Publishers

354-360 4th AVE.

New York City

# CITY DIRECTORY USES

## 1. SALES PROMOTION:

### a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

### b. Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

### c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

### d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.

2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.

3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

## 2. CREDIT:

### a. Verifying customer's statements and information.

### b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

### c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or shifts from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

# FOR EVERY BUSINESS

## d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

## e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

## 3. DELIVERY AND SHIPPING:

### a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

### b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

### c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

## 4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (\*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

## 5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
